FINANCE AND TRADE.

FINANCIAL AFFAIRS vesterday could be very well described by copying any day's report for a week passed and adding ditto to it. In the street money is again in more moderate request, and 21 is demanded in cases that are usually considered out of such an extreme as that. The fact is, a strongly conservative feeling has arisen about credit. It is felt, in the first place, that where people report their cotton crop ruined is no place to extend credit. In the second place, credit will be commonly refused where there are mobs, risings, disturbances and masked marauders. Mortheir shelves they know what they are worth, but if they let them go into the disturced districts on credit, they could never tell whether the paper represen-ing it was worth a cent. This is a severe tunavoldable view of the case, and it rokem paid 100 for gold. Exchange is ng on New York and Boston, selling at premium; buying on New Orleans at i iscount. WHEN PERDING PRIDAY, ASSCRIBE OF REG.

THE GENERAL MARKET WAS dull yesday; arrivals were small and sales agnificant. Core was absent from landing, but the condition of the ventern markets makes it very strong supartly on the advance; 181 meks sold at \$15.75. Outs were held at 57@55c, there was little demand, and we ing more abandant, and were again lower. (brunsed was quiet and firm at \$3.85. Cubbage was in light supply at \$1.05 per crate for good. Eggs were sleady at 15.05; we heard of some changing hands at 15c. Chickens are very quiet and prices drooping; \$263 50 was as much as we heard of; receipts by express were very full. Ryc is rarely bought or sold in this market, but some has been sold of inte, it is supposed for seed; it sells at \$1 a bushel in store. Bacon and other nog products remain as last quoted. The St. Louis Democrat, August 28th, has eight and a half coi-August 28th, has eight and a half con-umns of small print, all devoted to showing the position of the hog and the presects of the market the next winter; it sums up the whole as follows: "Iowa" bales; exports this week, 9411 bales; one up the whole as follows: "Iowa has an excellent corn crop, and about a falling off in the weight, which will ther reduce the crop of available pork for marketing purposes. Illimois reports somewhat less hour this year than the had last, and a falling off in weights. The note crop of that State is also reorted to be a third less. The majority leales, f the reports from Missouri indicate a large falling off in the number and weight of hors, and they are very discouraging with respect to corn, the drouth having seriously damaged it.

Nebraska and Kansas complain bitterly of drouth and grassicappers. Touse two inflictions have so reduced the corn crop that what few hope the farmers had left became a burden and could not be kept for the want of sed. Taken altogether, our report roves conclusively that the supply of ogs in the west will be much inferior

in numbers to the supply of 1873-4, and much lighter in latted weight, and that nowhere outside of Iowa and Illinois will there be corn enough to traute the proper fattening of hogs." The same paper of the twenty-seventh reports: "City cornmeal we quote at \$2.50.2.15 delivered, Sales 200 barrels city at \$3.50. Look of the corn number, owing to the very lightrecoipts." paper of the twenty-seventh reports:

All the corn was been used to see the corn and the corn an mand, but local inquiry was sufficient to that at 1 per cent. The sesistant treas-absorb the offerings, even at an advance over dishursed \$57,000. Clearings, \$76,-

We could not ascertain the conclusion arrived at, but know that it will do a great deal of good to adopt one of the plans mentioned, even if it does not fully reneedy the evil. We entertain hopes that the committee have settled upon some good plan and will urge upon the general council its adoption immediately, as delays are not only dangerous but very expensive.
